

# Installation Instructions: 4W/6W Firestay CCT LED Downlights (11370V2)

## Important Information

We recommend that luminaires are installed by a qualified electrician ensuring the installation complies with current IEE wiring regulations BS7671:2018 & local building control.

- All tests should be carried out in accordance to EN 50172:2004
- BELL will not accept responsibility for any claims arising from a poor installation.
- The light source of this luminaire is not replaceable: when the light source reaches end of life, the whole luminaire must be replaced.

#### **Important User Advice**

- The ambient room temperature should not exceed
- · Always switch off mains supply before installing.

# Table 1

Downlight	Cut Out Ø
11370V2	68-70mm

# Read these instructions before installation and retain for future reference This equipment should be installed by a competent electrician Installation

- 1 Cut a suitable diameter hole in the ceiling for your downlight (see **Table 1**) ensuring that it does not infringe with electrical cables, water/gas pipes or ceiling joists, (see Fig 1).
- 2. Remove bezel and adjust to required colour temperature and wattage, (see Fig 2).
- 3. Wire the female connector (separate in the package) to the circuit, make the necessary circuit tests. Connect the male connector (the one which is connected to the lamp) to the female connector, ensuring that they are fully 'Clicked', (see Fig 3).
- 4. Fold spring clips upwards and insert fitting into the hole, (see Fig 4).
- 5. Release spring clips to hole fitting in place, (see Fig 5).
- 6. Test for correct operation.

Fig 4

Female Connector

Firestay CCT downlights have a choice of four color temperatures(2700k, 3000k, 4000k, 6000k). Also a choice of two wattages(4W/6W).

You can choose the colour temperature and wattage you prefer via the switches under the bezel.

To change bezels simply twist and lock the bezel on the fitting, (see Fig 6).

### Insulation Coverable (IC Rated)

The lamp is designed for use with insulation material so that it does not need extra IC cage accessories.

This product may contain substances that can be hazardous to the environment if not disposed of properly. Electrical and electronic equipment should never be disposed of with general household waste but must be separated for its correct treatment and recovery.

Where possible recycle your packaging.
