

Read these instructions before installation and retain for future reference This equipment should be installed by a competent electrician

## Important Information

We recommend that luminaires are installed by a qualified electrician ensuring the installation complies with current IEE wiring regulations BS7671:2018 & local building control.

- BELL will not accept responsibility for any claims arising from a poor installation.
- The light source of this lamp is not replaceable: when the light source reaches end of life, the lamp must be replaced.
- Always switch off mains supply before installing.

This product may contain substances that can be hazardous to the environment if not disposed of properly. Electrical and electronic equipment should never be disposed of with general household waste but must be separated for its correct treatment and recovery. Where possible recycle your packaging.

**WARNING**  
This fixture has  
been modified,  
use only LED  
Tubes

## Wiring solutions for LED Tubes

## Installation - Retro fit version

- 1: Switch off the electricity supply
- 2: Remove the conventional lamp.
- 3: For high frequency electronic ballast bypass the ballast and wire L & N direct to the lampholder.
- 4: Stick the warning label in a visible location.
- 5: Insert the LED Tube into the lampholder.
- 6: Secure the position by turing the lamp by 90°.
- 7: Switch on electricity and check for lamp operation.
