36. Two Dark points may exist on the surface of the heating elements during the first few minutes after it is turned on. This is normal, and will not affect the performance of the unit.

Operation

Connect the power cable to a 13amp supply that is located in a safe, dry area.

- ~ The switch on the heater head is used to control the two heat setting.
(I) for 1000W -(II) for 2000W.
- ~ Although the patio heater is shower proof, do not use when raining or in wet conditions.
- ~ Always disconnect the power cable from the electrical supply, when the patio heater is not in use.

CARE AND MAINTENANCE

- ~ When disconnected from the electrical supply, clean the outside of the patio heater with a damp cloth. Never use corrosive or solvent cleaners or immerse in water.
- ~ Any maintenance or repairs including replacing the halogen tube should only be carried out by a qualified electrician or by a recommended service center.

DISPOSAL

Environmental Protection

Waste electrical production should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice.
