Thank you for purchasing this SycamoreLED.com product.
Please make sure instructions are followed carefully prior to and during installation and product is not altered, otherwise warranty may not be valid. For technical support or warranty information please visit www.sycamoreLED.com, or call our dedicated technical helpline +44 (0) 113 2866686.

IMPORTANT—Please read prior to installation

1) Please read these instructions carefully before commencing any work
2) This product must be installed by a qualified electrician in accordance with the current IEE wiring regulations
3) To prevent electrocution switch the power off at the mains supply before installing or maintaining this fitting
4) Ensure others cannot restore the electrical supply without your knowledge
5) Never exceed the wattage stated

SPECIFICATION

1) This product switches the main 240V supply
2) It is suitable to use with Halogen, Fluorescent & LED lighting *please note a transformer/LED PSU must be used for low voltage lighting systems*.

INSTALLATION

1) Isolate power for circuit into which the unit is to be connected.
2) The incoming mains supply should be a constant supply protected by a relevant fused spur/MCB. This is connected the “L” and “N” (in)
3) The mains cable from a transformer/LED PSU should be connected the ⊗ (out) terminals
4) The touch switch wire should be kept as short as possible and should not exceed 3 metres. This is to be connected to a metal screw/cap.
5) Connect relevant L.V lights to transformer/LED PSU. Restore power and check operation on the touch point by simply touching the screw/pad.
6) The sensitivity of the touch pad can be adjusted using the - or + time screw on the unit.

CARE IN USE

1) Please note this fitting has non replaceable parts
2) Always switch off or disconnect from the mains when cleaning the product.
3) We recommend cleaning with a soft dry cloth. Do not use scourers, abrasives or chemical cleaners.
