**IMPORTANT - Please read prior to installation**

1. Please read these instructions carefully before commencing any work
2. Please retain these instructions for future reference
3. This unit must be installed by a qualified electrician in accordance with the IEE wiring regulations and building regulations
4. To prevent electrocution switch the power off at the mains supply before installing or maintaining this fitting
5. Ensure others cannot restore the electrical supply without your knowledge

## Turning the LED Light On/Off

- To switch the light on or off, wave your hand in front of the sensor on the mirror surface.
- The heated pad operates only when the mirror is illuminated.

## Changing the LED Light Colour

- This mirror features tunable LED strips (from cool white to warm white).
- With the lights turned off, hold your hand in front of the sensor until the desired colour is reached.
- The selected colour temperature will remain set until it is changed again.

## Adjusting the LED Light Brightness

- This mirror includes adjustable brightness LED strips.
- With the lights turned on, hold your hand in front of the sensor until the desired brightness is reached.
- The brightness level will remain set until it is changed again.

## CARE IN USE
