SNO 10 Plus (GB)

SMALL WATER HEATER

PRODUCT-NO.: 204984

Make your water heater the highlight of the room

The good performance you've come to expect with a fresh new look: this small water heater for oversink installation makes a design statement in your room. Not only because this appliance features compact dimensions in a stylish casing, but also because it provides you and your family with hot water in an energy saving and efficient way.

Prevent energy losses effectively

What contributes to the high efficiency of our small water heaters is the fact that the water is heated directly at the draw-off point. This prevents thermal losses and ultimately saves you money. Vary the temperature with the high quality haptic rotary selector. Replacing an older model is very easy, as you can use the same wall mounting bracket for this small water heater.

SNO 5 Plus (GB)
Product-No.: 204979

The main features

- Compact and high quality small water heater for oversink installation
- Hot water available immediately
- Safe use due to adjustable mechanical temperature limit as anti-scalding protection
- Very low energy losses thanks to high grade thermal insulation
- Quick and easy replacement of older appliances thanks to universal wall mounting bracket
- Optimised DHW heating for higher efficiency with ECO mode

Type	SNO 5 Plus (GB)	SNO 10 Plus (GB)
Part no.	204979	204984

Technical data

Connected load	2 kW	2 kW
Rated output 2	2,0 kW	2,0 kW
Power supply	1/N/PE	1/N/PE
Rated voltage	230 V	230 V
Fuse protection 2	10 A	10 A
Frequency	50-60 Hz	50-60 Hz
