

## FXR04S LED EMERGENCY CONVERSION REMOTE PACK

Thank you for purchasing our FXR04S LED Emergency Conversion Pack. Our products have been designed according to the relevant standards. If installed and maintained correctly they will provide a long service life.

This is a self-test emergency conversion pack. When the self-test system is active, a functional test is carried out automatically once a week and runs for 30seconds. A full duration test is carried out automatically every 52 weeks. The first full duration test is carried out automatically within the first 4 weeks of being connected to mains supply.

NOTE: If the self-test function is disabled, testing must be carried out by a competent person according to BS EN 50172:2004.
