PLEASE READ THESE INSTRUCTIONS BEFORE INSTALLATION.

WARNING: Risk of electric shock! Isolate the mains power before proceeding.

- Turn off the mains power before performing inspections, installation, or removal
- Verify that the supply voltage is correct by comparing it with the luminaire label information
- It is the installers responsibility to ensure installation is suitable for the total load of the luminaire(s). The supply cable, fuses/circuit breakers must be correctly rated for the electrical load and considering for any transient inrush currents that may occur
- Do not perform insulation strength or resistance tests on installed luminaire(s) connected

1. Disconnect the main power supply and cut your required size mounting hole. (See reverse for correct size)
 2. Connect mains cable to Loch3 connector supplied as per wiring diagram
 3. Connect the Loch3 connector together ensuring the driver is connected to the light fitting via the jack plug supplied as per wiring diagram
 4. Fit the downlight into drilled hole by lifting the fixing levers
 5. Re-connect the mains supply
- DO NOT COVER PRODUCT OR CONTROL GEAR WITH INSULATION OR OTHER MATERIALS**
