- Drill

- 100W requires 6mm Hex Key
- 150W - 280W requires 8mm Hex key

- Cable

**INSTALLATION INSTRUCTIONS**

**PLEASE READ THESE INSTRUCTIONS BEFORE INSTALLATION.**

**WARNING: Risk of electric shock! Isolate the mains power before proceeding.**

- Turn off the mains power before performing inspections, installation, or removal
- Verify that the supply voltage is correct by comparing it with the luminaire label information
- It is the installers responsibility to ensure installation is suitable for the total load of the luminaire(s). The supply cable, fuses/circuit breakers must be correctly rated for the electrical load and considering for any transient inrush currents that may occur
- Do not perform insulation strength or resistance tests on installed luminaire(s) connected

1. Switch power off
2. Drill appropriately sized holes into your wall or ceiling and insert appropriate anchor bolts
3. Use correct fixings (see overleaf) for fixing the light to desired surface. If installing in an harsh environment, please use adequate corrosion resistant fixings
4. Adjust light fitting to correct angle. **DO NOT INSTALL UPSIDE DOWN**
5. Wire as per diagram (5)
6. Switch power back on
