

# 6.5W LED Energy Saver Bulkhead Light Model: LED88N – Black

# 1. General Information

These instructions should be read carefully in full before installation, and retained for further reference and maintenance.

# 2. Safety

- Before installation or maintenance, ensure the mains supply to the luminaire is switched off and the circuit supply fuses are removed or the circuit breaker turned off.
- It is recommended that a qualified electrician is consulted or used for the installation of this luminaire and install in accordance with the current IEE wiring and Building Regulations.
- Check that the total load on the circuit including when this luminaire is fitted does not exceed the rating of the circuit cable, fuse or circuit breaker.

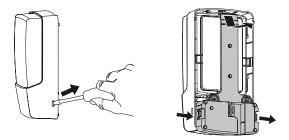

# 3. Technical Specifications

- 230V AC 50 Hz
- This luminaire is of class II construction and must not be earthed
- 6.5W LED Non replaceable lamp
- This product contains a light source of energy efficiency class: F
- Energy Usage: 6.5kWh/1000H
- Lumen Output: 500lm
- Beam Angle: 90° x 90°
- Colour Temperature: 4000K
- Operating Temperature: -20°C to +40°C
- IP55 Rated suitable for restricted external applications
- CE Compliant
- Dimensions: H= 205mm W= 108mm D= 63.5mm

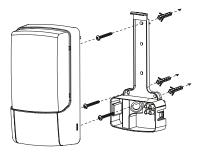

## 4. Installation

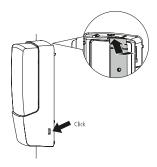

- 4.1 Ensure the mains supply is switched off and the circuit supply fuses are removed or the circuit breaker turned OFF.
- 4.2 Remove the wall plate by releasing the 2 lugs, left & right, located on the rear bottom section of the luminaire and gently ease the wall plate down/outwards from the top.

- 4.3 Mark the position of the mounting holes on the wall using the wall plate as a template, and drill the holes ensuring not to infringe with any gas/water pipes or electrical cables that may be hidden below the surface. Insert the wall plugs.
- 4.4 Secure the supply cable into the wall plate through the hole(s) provided ensuring that a cable gland, grommet or sealing compound is used to maintain the IP rating of the luminaire.
- 4.5 Fix the wall plate using the correct screws for the wall plugs installed.

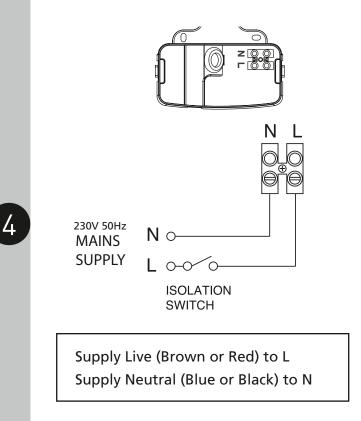

- 4.6 Terminate the cable into the terminal block (See section 5. Connection Diagram) ensuring correct polarity is observed and that all bare conductors are sleeved.
- 4.7 Re-connect the luminaire to the wall plate by positioning it on the top first, and then push on the bottom of the unit ensuring both lugs click into place.

## 5. Connection Diagram

• Connect the 230V 50Hz mains supply cable to the terminal block as shown.

## 6. Operation

• Turn the power to the unit ON and the unit will illuminate.

# 7. Support

Note: If you have any concerns that the intended application of this product does not meet your requirements, please contact Timeguard directly prior to installation.

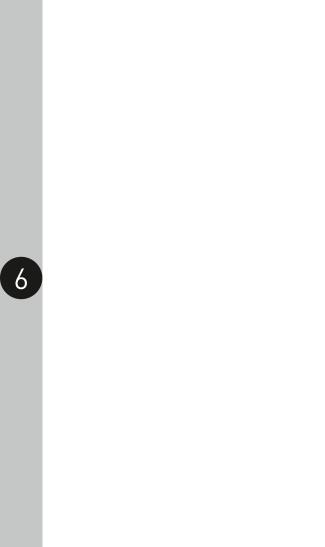

## 8. Guarantee & Company Details

#### 3 Year Guarantee

In the unlikely event of this product becoming faulty due to defective material or manufacture, within 3 years of the date of purchase, please return it to your supplier in the first year with proof of purchase and it will be replaced free of charge. For years 2 to 3 or any difficulty in the first year, telephone our helpline. Note: a proof of purchase is required in all cases. For all eligible replacements (where agreed by Timeguard) the customer is responsible for all shipping/ postage charges outside of the UK. All shipping costs are to be paid in advance before a replacement is sent.

If you experience problems, do not immediately return the unit to the store. Telephone the Timeguard Customer Helpline;
